## Greetings

Welcome to the world of "Hikari no Kirie (Paper cutting with light)." Once you step inside, you will enter a fantastical, warm, and magical world.

Hikari no Kirie artist Sakai Atsumi has created a new form of expression by combining "light" and "paper cutting." When light shines on washi paper, which has a warm texture and flexible strength, it emerges beautifully and strikingly from the surrounding darkness. Sakai then depicts universal stories that we all experience, discovered in everyday life. These worlds, which combine a variety of colors, shapes, and light, have brought warm feelings to the hearts of many people across generations.

This exhibition, which has been touring the country since 2023, will feature a variety of techniques, including "Ichiganikyo(One painting, two surprises)," which expresses a painting that changes dramatically depending on whether it is in front or backlight, along with the element of time flowing between the two paintings; "Earth Sketches," a large, immersive work featuring variously changing scenes of vibrant nature and cityscapes; and "Moving Picture Book," a video work that adds a story and music to cute, moving page cutouts

Among these, "Earth Sketches" will be showcasing new works at each venue. Sakai, who aspired to make a living from painting, first visited Ehime over 20 years ago, while sketching the Shimanami Kaido. Ehime is a memorable place where she took a major step as an artist. Since then, she has continued to travel, sketching many places around the world, to this day. This time, she has completed a new work unique to Ehime, based on sketches she has accumulated over multiple visits over the years. In addition, the musical unit Kokototo (Hasegawa Kumiko/Okabayashi Waka) will perform original music incorporating sounds they encountered on their travels in Ehime, further enhancing the

So everyone, take a deep breath, let your eyes gradually adjust to the darkness, and enjoy this world of "Hikari no Kirie" to your heart's content.

Finally, we would like to express our sincere gratitude to Sakai Atsumi, who provided full cooperation in organizing this exhibition, and to all those involved who worked so hard to make it happen.

## Sakai Atsumi

She continued to paint on her own, and her foundation lay in paper cutting using overhead projectors for stage art.

She continues to create and exhibit her original style of painting, which she calls "Hikari no Kirie" in which "paper cutting" is made to look transparent with "light."

This time's < Traveling Hikari no Kirie Exhibition> features works on display in five spaces: "Ichiga nikyo (One painting, two surprises)," in which a single paper cutout transforms into two different expressions; "Chikyu sukecchi (Earth sketches)," in which landscapes are drawn with music and objects; "Moving Picture Book Theater," which gently speaks to the heart; "Otoiro mangekyo (Kaleidoscope of sound and color)," a space filled with sound and light; and "Photo Spot," where photos can be taken amidst the heart of light.

Please enjoy this moving "experiential art" to your heart's content.
